ANANT
FELLOWSHIP
SOLUTIONARIES FOR THE BUILT ENVIRONMENT

About

Throughout their study period at AnantU, the career services office works with UG and PG students to understand their dreams, talents and capabilities to help them make informed career choices. Whether it is pursuing their dream job or continuing the learning path, a dedicated career services office scouts for optimal opportunities for each student and facilitates conversations with recruiters.

The Anant Fellowship

Launched in 2017, the Anant Fellowship prepares and empowers Solutionaries who design, build, and preserve a more equitable and sustainable Built Environment in India and across the world. The programme is designed as a multi disciplinary immersion to introduce practitioners and students to new ideas, knowledge, and skills.

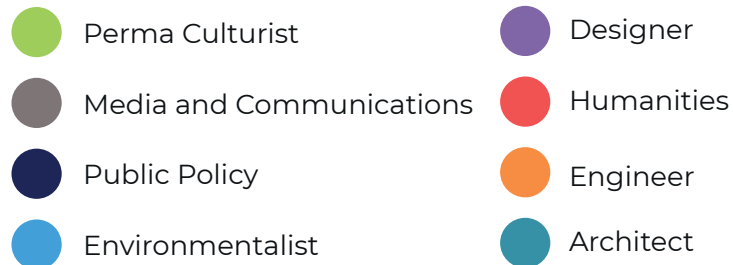

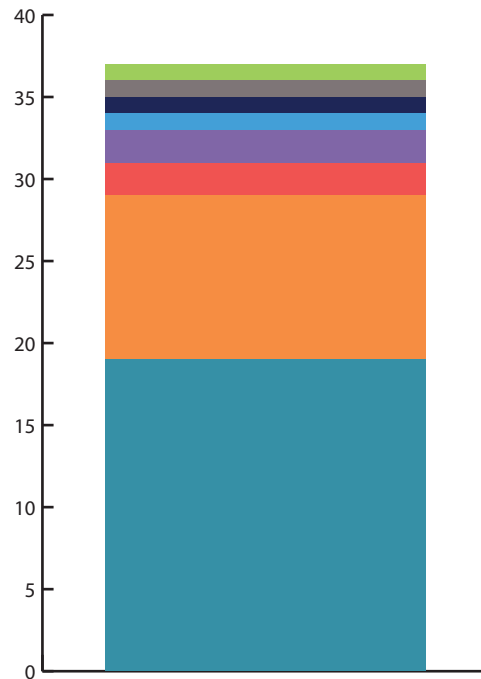

The fellowship has an eclectic cohort from all over India and the world, putting them through a rigorous programme containing 32 courses that range from communications to history, architecture and hands on workshops.
