AnantU Situation Test (UG) – 2018

Part 1 (2 hours)

During your written examination, you have designed an intervention for students of high schools to help promote design education and rouse curiosity(especially the mobility impaired ones).The intervention could be playful & educative at the same time.

Make a physical manifestation, of the intervention you envisioned and designed.

You can choose to make a brand new intervention – product/service or rework on the original.

Represent the physical model of your concept with the given materials :

1. Balloons
2. Rubber bands
3. News paper
4. Wool
5. Thumb pins
6. Colour sheets
7. Tpins / All pins
8. Potato
9. Ice cream sticks
10. Straws

Part 2 (1 hour)

Name your product and present your design, explain your thinking behind it.
