

ANANT
FELLOWSHIP
SOLUTIONARIES FOR THE BUILT ENVIRONMENT

Become a
Solutionary

anu.edu.in/fellowship

Anant Fellowship is a one-year postgraduate diploma programme in the Built Environment that prepares and empowers solutionaries to design, build and preserve an equitable built environment. The multidisciplinary curriculum designed by leading academics, industry practitioners and global experts provide fellows with an experiential learning experience unmatched by any other programme.

Learn from the best

PhD in Health Economics,
Utkal University,
Orissa

Priyamwada Singh
Master of Architecture,
Columbia University,
New York

Urvarshi Butalia
Masters in South Asian Studies,
University of London

Become a SOLUTIONARY

Launched in 2017, the programme has attracted more than 143 fellows from over 18 countries across the globe. Throughout the year fellows work together in an immersive hands-on experience with colleagues from diverse cultures, nationalities, educational and professional backgrounds to solve some of the most pressing challenges of our built environment.

Live Action Project

The Live Action Project is an 8-month long experiential track offered at Anant Fellowship, where the Fellows will work in teams to propose an innovative, equitable and sustainable solution to a built environment problem. It is the 'action' part of the curriculum, which offers hands-on learning on real-time issues that affect the built environment. Fellows will have the option to work with an organisation currently working in this domain or, design their own projects.

Trackwise Learning

Anant Fellowship is curated and designed by experts from the fields of design, architecture, technology, liberal arts, and management. Modules offered at the Fellowship are divided into 6 tracks namely,

- 1 Flagship Track: Society and Culture
- 2 Fundamentals of the Built Environment
- 3 Language and Methodology
- 4 Design for Development
- 5 Self Growth & Leadership
- 6 Live Action Project (LAP)

Fees

Tuition: INR 5,00,000* LPA

Hostel: INR 2,00,000 LPA

Total: INR 7,00,000 LPA

*Need-based tuition scholarships available

Admissions

Eligibility

a Applicants should have successfully completed an undergraduate or postgraduate degree in any discipline before the start of the Fellowship. Students in their final year may also apply

b Demonstrated commitment to improving the Built Environment, and an understanding of the issues pertaining to this area

c A combination of good academic and extracurricular achievements

Mode of delivery (Academic Year 2022-23)
One-year, full-time, residential programme. Classes will be held at the varsity campus.
