2-YEAR, FULL-TIME, POSTGRADUATE PROGRAMME

Master of Architecture (Theory and Practice)

The master's programme offers the students a critical lens to redefine and reimagine architecture as a synergy of history, theory and practice.

It aims to bridge the gap between theoretical precedents and practice in architecture. It is a constructive, collaborative, reflective, and inquiry-based course allowing students to speculate theories.

It encourages the exploration of new ways in architectural thinking, develops pioneering design projects, and redefines forms of architectural practice and research.
