

ANANT NATIONAL UNIVERSITY
॥ प्रज्वालितो ज्ञानमयः प्रदीपः ॥

India's First
DesignX
University

Anant National University, India's first DesignX University, nurtures students with multidisciplinary approach to develop a comprehensive understanding of the world and deliver innovative and impactful solutions. The university is committed to creating solutionaries (revolutionary thinkers with solution-oriented mindsets) who possess technical skills, a holistic understanding of the content and are also good communicators, collaborative workers and critical thinkers.

Bachelor of Design

Bachelor of Design

Graphics, branding and visual communication *B.Des. in Communication Design*

The programme teaches thinking techniques, & creative & technical skills to convey a message through various media. They develop knowledge about graphic design, animation & film-making along with technical subjects such as typography, photography, composition & semiotics. They also take up industry projects with top-notch brands, agencies & startups.

UI/UX/XR/Game Design *B.Des. in Interaction Design*

The programme trains students to design & develop interactions that include digital products, user interfaces (UI), immersive environments, complex systems, services & user experiences (UX). With the knowledge of design, analytics, and visualisation tools, students learn how to solve contemporary challenges by being inclusive.

Product Development, Healthcare Design and Industrial Design *B.Des. in Product Design*

The programme trains students in a strategic problem-solving process through innovative products, systems, services, & experiences that drive innovation, build successful businesses & lead to a better quality of life. Students are exposed to a wide range of technologies, such as computer-aided design, AR, VR, 3D printing, & electronics to develop awareness of consumer behaviour & technological trends.

Interior Design, Set Design, Event Design *B.Des. in Space Design*

This programme imparts in-depth knowledge, design thinking, creative exploration & technical skill sets that equip our designers to create state-of-the-art, habitable spaces of diverse types across multiple sectors. Using a futuristic perspective, they learn to look at space as an interface between humans & the environment.

Fashion Design, Apparel Design and Digital Fashion *B.Des. in Sustainable Fashion and Textile Design*

The programme combines the principles of fashion, textile & technology with sustainability, to impart comprehensive fashion education. Using modern methods, materials and techniques, students are able to create innovative, sustainable, & conscious fashion for the global market. It provides hands-on, experiential learning in both, indigenous & industrial systems by imparting a unique & comprehensive understanding of the discipline.

Film Making, Animation and Podcast Design *B.Des. in Moving Image*

The programme prepares graduates for careers in film, television and internet-based media platforms. Merging live action, animation, motion graphics, cinematography and other skills, the programme offers an exciting blend of film theory and practice.

Practice multiple specialisations *B.Des. in Transdisciplinary Design*

An amalgamation of all the disciplines, this programme gives extended exposure to diverse fields of design. Students choose courses across all majors and carve their own career path. AnantU offers the students the chance to develop an understanding of design thinking and design process across multiple disciplines.
