Connecting realities, building perspectives

February 2025

1 Union Budget 2025-26 analysis

2 Key features of Budget 2025-2026

The document 'Key Highlights of Budget 2025-26' presents infographics and graphical representations of key budgetary measures. It summarises major government initiatives, economic policies, taxation reforms and financial allocations in a structured and visually engaging format. The content highlights sector-wise developments, fiscal trends and investment priorities, making it easier to comprehend the budget's impact on various stakeholders.

3 Technology panorama for Aatmanirbhar Bharat

Advancements in science and technology (S&T) lay the foundation for the advancement of humanity. The past decade has witnessed an extraordinary development in Indian scientific capabilities spurred by digital and technological interventions. With a conducive environment created by government policies, India has pushed the frontiers of S&T while also improving the quality of life of its citizens at large. This report examines some S&T interventions from the last decade, their design assumptions and objectives, prominent achievements and their impact on citizens.

4 Green building challenges and AI solutions

This position paper results from the efforts of the 'Impact (Urban Infrastructure)' and 'Innovation (Artificial Intelligence)' practice teams of the AGNii Mission, Invest India and Smart City Living Lab, IIIT Hyderabad. The paper encapsulates the deliberations held at the Expert Roundtable on Green Building Challenges and AI Solutions on 17 August 2022, at IIIT Hyderabad.

5 User research is storytelling by Gerry Duffy

How can user experience researchers make sure their voices are heard and their work is valued? By telling a good story. Gerry Duffy guides us through the thickets of research as storytelling by showing us how to recast an oft-maligned discipline as an opportunity to craft a convincing and exciting narrative.
